PROFILE

I am a student at UCE, a software developer, and an ideas person. I have found in software development a lifestyle that allows me to explore the world through technology. My experience in software development includes design, implementation, and maintenance, frontend and backend development, building and communicating microservices, CI/CD, handling APIs, Docker, and more. I am passionate about science, the art of the terminal, and ideas that transform LATAM.

EXPERIENCE

2022 - 2023

Golden Companies

SOFTWARE DEVELOPER

- Building microservices in Java
- Migration of web application using Spring Boot and React
- Integration of New Relic for service monitoring
- Optimization of SQL queries in PostgreSQL
- Administration of Linux servers in Linode Integration of
- CI/CD with Gitlab and Kubernetes
- Management of APIs and OAuth flow

2021

Golden Companies

SOFTWARE DEVELOPMENT INTERN

- ETL Development with Java and Spring Boot
- Web Scraping with Python
- Processing event streams with Apache Kafka

EDUCATION

2023

UNIVERSIDAD CENTRAL DEL ECUADOR

Information Systems Engineering - 9° Semester

2017

UNIDAD EDUCATIVA TÉCNICA "YARUQUÍ"

Technical Bachelor in Accounting Services

TRAINING

2021

SCRUM FOUNDATION PROFESSIONAL CERTIFICATE

CertiProf

SKILLS

Coding Languages/Markup
Java, Python, JavaScript, HTML, CSS
